

**School Starts
August 16th**

GRIZZLY HILL SCHOOL

LEARNING RE-IMAGINED

Twin Ridges Elementary School District is excited to announce changes to the upcoming 2021/2022 school year!

First, we are happy to announce that students will be meeting in-person! You can pick up a registration packet at the district office, or register online through the tresd.org website.

Independent Study is also available for students. This is the same Independent Study program that was previously offered before 2020.

For more information regarding registration or Independent Study, contact Sunshine Bender at the district office:
(530) 265-9052 x210

We are implementing an experiential learning pathway, which moves students beyond the traditional classroom and out into the world. They'll engage in hands-on activities and local field trips to emphasize 'learn by doing' experiences. Additionally, we'll be implementing a restorative justice program on all of our campuses. This program provides tools, principles, practices of respect, responsibility, community building, and relationship restoration; skills sure to positively impact school culture and beyond.

We are offering a wide variety of electives this year, they include:

Music, Art, Writer's Theatre, Digital Photography, 3D Printing, Robotics, Coding, Storytelling Workshop, Leadership, Sierra Harvest Organic Gardening, Volleyball, Basketball, Cross-Country, Track and Field

We are pleased to announce the opening of Little Acorns Preschool, located on the Oak Tree School campus. There will be two sessions serving children two and a half to five years of age. Our director, Pam Langley, looks forward to introducing a program that provides a positive and exciting learning experience to preschool-aged students as they begin their educational journey.

Adult Education will also be offered on our Oak Tree campus. This will be an opportunity to have childcare at our Oak Tree Preschool, while also offering ways for parents to pursue their GED.

We Look forward to seeing you!
